About us

Fighting financial crime (e.g., terrorism financing, money laundering, human trafficking...) is of paramount importance. International regulations require all financial service providers to implement financial crime compliance programs, and fines for breaches of compliance are extremely high.

Our ambition is to become a global leader in Financial Crime Compliance, offering advanced technology solutions to international clients and an attractive working environment for top talents.

We are looking for a Product Manager to join our fast-growing team. Reporting to the Chief Product Officer, your role is to take ownership of 1-2 core API products from end to end. Main functions will include:

- Own the full product lifecycle: roadmap, backlog, discovery, testing, delivery
- Drive technical demos using Postman or similar tools
- Partner with sales on presales conversations with top-tier clients
- Work directly with compliance and engineering stakeholders
- Interact with and steer the work of our developers
- Represent the company at conferences and industry events
- Shape product narratives with our marketing team

Your skills and experience

- 5+ years in Financial Crime Compliance, ideally with sanctions screening expertise
- Technically fluent – comfortable calling APIs and explaining how they work
- Experienced with enterprise clients in banking, fintech, or big tech
- You thrive as a senior individual contributor, owning outcomes without relying on a team beneath you
- Comfortable juggling discovery, delivery, demos, and go-to-market in parallel
- Comfortable working in a fast paced and dynamic environment
- Excellent verbal and written communication in English
- Ability to operate inside a security-aware culture

What we offer

- Solve real problems in a mission-critical domain
- Ship fast with autonomy and direct access to customers
- Work with experts in compliance, tech, and product
- Influence the future of sanctions screening at scale
- Contribute to building a new market leader
- The agile and fast-moving environment of an international startup
- The role is based on the Louvain-La-Neuve campus (20km SE of Brussels) but can be remote

How to apply

Please send a mail to jobs@neterium.io or contact Pascal Aerens via LinkedIn.
