

We are helping fight financial crime.
in the cloud.
all over the world.
using AI.
Come and join us to make a difference.

neterium.io/jobs

About us

Fighting financial crime (e.g., terrorism financing, money laundering, human trafficking...) is of paramount importance. International regulations require all financial service providers to implement financial crime compliance programs, and fines for breaches of compliance are extremely high.

Our ambition is to become a global leader in Financial Crime Compliance, offering advanced technology solutions to international clients and an attractive working environment for top talents.

We are seeking a highly skilled and motivated DevOps Engineer to join our team. The ideal candidate will have experience with AWS and Kubernetes, and will integrate the team to further improve and maintain our cloud infrastructure and the CI/CD pipelines, including:

- Maintaining and improving highly available and scalable infrastructure on AWS
- Monitor and optimize the performance of our infrastructure
- Troubleshoot and resolve issues with the infrastructure
- Collaborate with development teams to ensure smooth integration of new features and updates
- Continuously improve and update our infrastructure to meet business needs

Your skills and experience

- Strong experience with AWS, including EC2, VPC, EKS, S3
- Experience with automation and configuration management tools such as Terraform
- Very good knowledge of containerization technologies such as Docker and Kubernetes
- Ability to write Helm charts
- Strong scripting skills
- Familiarity with CI/CD pipelines
- Strong understanding of networking concepts and security best practices
- Excellent problem-solving and troubleshooting skills
- Good verbal and written communication in English

What we offer

- The agile and fast-moving environment of an international startup
- The ability to meaningfully contribute to the global fight against financial crime
- Compelling salary package
- The role is based on the Louvain-La-Neuve campus (20km SE of Brussels) but can be partly remote

How to apply

Please send a mail to jobs@neterium.io or contact Thomas Gilbert via LinkedIn.
